Now that Sabita has obtained her citizenship, she finally has the opportunity to pursue her studies. Our staff member, Mr. Prakash, has found a host family for her in Kathmandu where she can stay during her agricultural studies.

Mr. Prakash is helping Sabita set up her laptop. Sabita will first take a computer course and then begin her studies in about two months. She is very happy to have this opportunity, and her mother will continue running her shop in Dharan. Sabita, we wish you much success!

On May 12th, we received the sad news that Chadeni, the young woman we have been supporting since 2008, passed away unexpectedly. Life had been very difficult for her lately, and we are relieved that she has now found peace.

Chadeni, the month before her passing

Chadeni was cremated in a traditional ceremony, with her brother paying his last respects to her.

The Dipendra school is slowly but steadily expanding. This school year, grade 6 has started. Additionally, two female teachers and one male teacher have been hired.

The new teachers

We are proud that this school, located in a disadvantaged area where teachers were previously hard to find, now serves as a model for the Dharan region.

The municipality has also been more involved with this school in recent years; here we see a municipal official distributing new school books to the grade 6 students.
